EDUCATION

The George Washington University — Aug 2023–Present
PhD Student: Political Science — Washington, DC
American Politics Major, Statistical Methods Minor

Truman State University — Aug 2019–May 2023
Bachelor of Arts: Political Science — Kirksville, MO

PUBLICATIONS

The Incumbent's Dilemma: Incumbent Ideology and its Effect on Primary Election Performance in the United States House of Representatives from 2000 to 2020. — Fall 2022
Michigan Journal of Political Science (Undergraduate Research Journal)

PROJECTS

VoteHub 2026 Endorsement Tracker

- I maintain a publicly accessible database of all notable party elite endorsements in the 2026 U.S. House primary elections. Using Wikipedia page view data and officeholder "bonus" scores, I track where party elites are directing their support across primary contests nationwide in real time.

RESEARCH IN PROGRESS

What Happens When the Party Decides? The Effect of Party Control of Primary Elections

- Using a large data set of contribution history to identify party-favorite candidates and employing a regression discontinuity design, I conduct a causal investigation into how party-supported candidates perform after they win the primary election. I find little evidence for candidates who receive support from parties in the primary doing any better in general elections compared to candidates who receive no support.

Primed for Success: Party Elite Endorsement Efficacy in Open-Seat U.S. House Primary Elections

- I assemble a comprehensive data set of all endorsements made in open-seat primary elections for the U.S. House in the 2024 election. Using Wikipedia page views to assess partisan elite influence I examine if endorsements from more influential elites translate into higher vote share.

CONFERENCES AND PRESENTATIONS

Annual Meeting of the American Political Science Association — 2024, 2026
Annual Meeting of the Southern Political Science Association — 2026
Junior Americanist Workshop Series — 2026
The George Washington University Second Year Paper Workshop — 2025
Pi Sigma Alpha Research Conference Discussant — 2025, 2026

TEACHING EXPERIENCE

Teaching Assistant - Legislative Politics (GW) — Fall 2026
Teaching Assistant - Introduction to American Politics (GW) — Fall 2023 - Spring 2026

SKILLS

Tools and Languages — R, LaTeX, AI tools for coding, Slack
